

## REVIEW ARTICLE EVALUATION FORM

Student's First Name(s)		Student's Last Name	
Student's Full Name (Local)			
Student ID		Study Level	
College			
Department			
Specialization			

Title of Article	
Course Name	

Review Article		
#	Area of Evaluation	Points (1-10)
1	<b>Title and Abstract:</b> Evaluate the title and abstract to see if they appropriately convey the article's content.	
2	<b>Objectives and Methodology:</b> Evaluate the article's objectives to determine if it answers the article's research question. Does the methodology outlines the data analysis techniques, inclusion and exclusion criteria, and search strategy?	
3	<b>Analysis and Discussion:</b> Evaluate the review article's interpretation and analysis of the findings. Determine whether the conclusions are backed up by the evidence and evaluate if the article has critically considered the study's limits and implications.	
4	<b>Logical Structure:</b> Evaluate the article's structure and organization to determine if it follows a logical flow that makes it simple for the reader to understand the argument and important points.	
5	<b>References:</b> Evaluate the article's references to determine if they are from reputable sources and relevant to the article's topic.	
6	<b>Writing Quality and Compliance with Guidelines:</b> Evaluate the writing quality of the article to determine if it is a well-written (grammar, spelling, punctuation, high-quality figures, etc.). Does the article comply with the University guidelines (word count, formatting specifications, etc.)?	

Presentation		
#	Area of Evaluation	Points (1-10)
1	Communication skills (clear slides, confidence, body language, etc.)
